Signs at McCarthy's

Yesterday morning's CHIEFTAIN contained an announcement of the death of James Burns, who was reported to have been killed on Friday last at the Goldbug mine, near Telluride, by a snow slide. That announcement was a sad one to Mr. Con Burns, of this city, being the first news he had received of the death of his brother James. No particulars of the deplorable accident have yet been received. The warm sympathy of this community will be extended Mr. Con Burns in this bereavement. It is probable that the remains of the deceased will be brought to Pueblo for interment.
