

ACCESSING BUSINESS DATABASES FROM HOME OR OFFICE

Pueblo City-County Library District patrons who have a Pueblo County address can access databases from outside the library. In order to access, you must have your library card number and PIN available to enter when prompted.

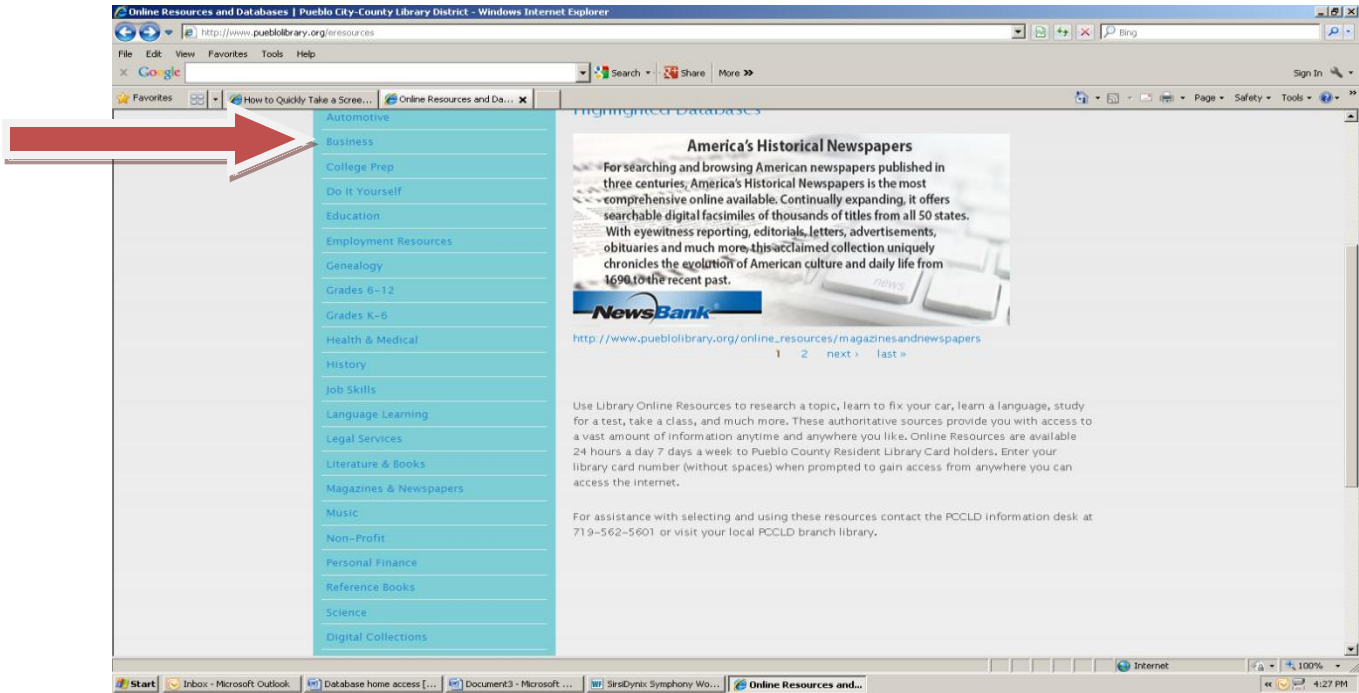

Start from the library's home page: <http://www.pueblolibrary.org>

Hover over Search in the top bar and click eResources (Databases) on the drop-down menu.

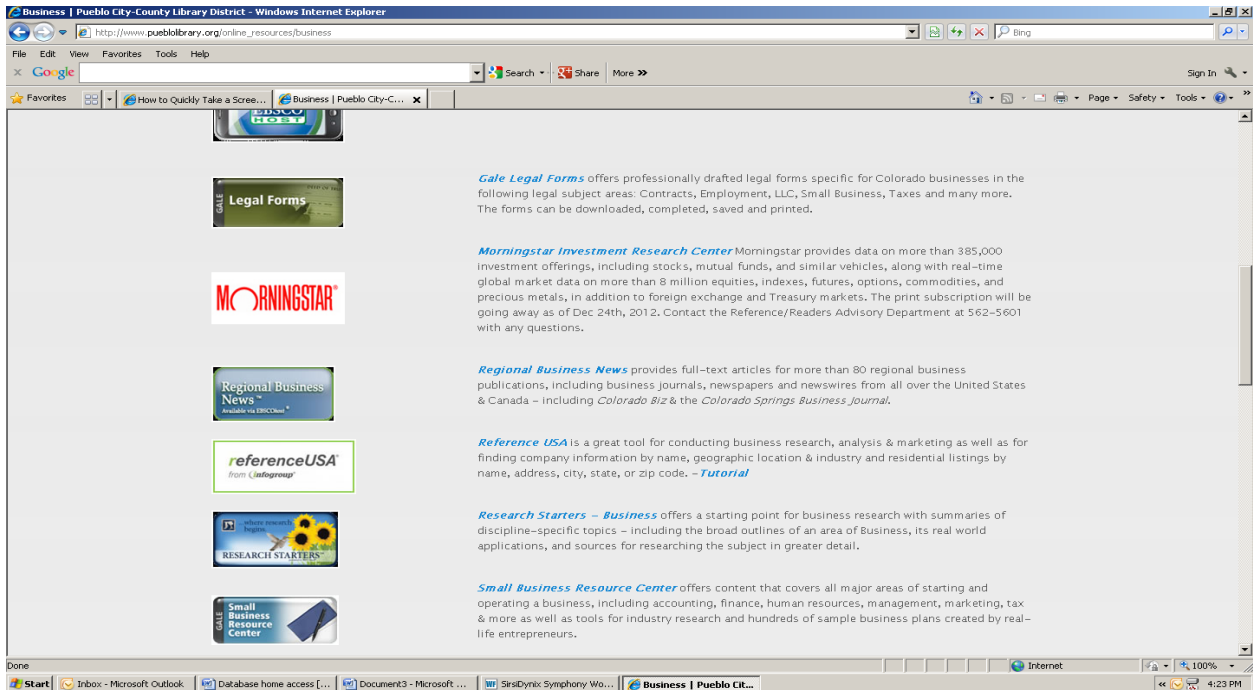

The screenshot shows the website interface in Internet Explorer. The top navigation bar includes links for Home, Search, News & Events, Services, Resource Centers, About the Library, My Account, and Donate. A search bar is located below the navigation bar. A red arrow points to the 'Search' menu, which is open and displays a list of options: Search Menu, CDs & more, Colorado State Publications, Community Resources, Digital Collection, eBooks, eAudiobooks & eMusic, eResources (Databases), and Pueblo Obituary Index. The 'eResources (Databases)' option is highlighted in green. Below the navigation bar, there is a 'Calendar of Events' for April 2013, a 'Today's Events' section listing 'Tech Tutor @ the Y' and 'Time for Tots', and a 'Reclamation: Photographic Works' exhibit announcement. At the bottom, there is a 'JUST IN!' section featuring new titles like 'The Dog Stars', 'Drop Dead Chocolate', 'Billy Lynn's Long Halftime Walk', 'Sonia Sotomayor My Beloved World', 'Maive Binchy A Week in Winter', 'After the Fire', and 'The Child's Child'.

The home page for all databases will look like this—you will go to the Business link:

These are some of the links to the Business Databases:

REFERENCE USA

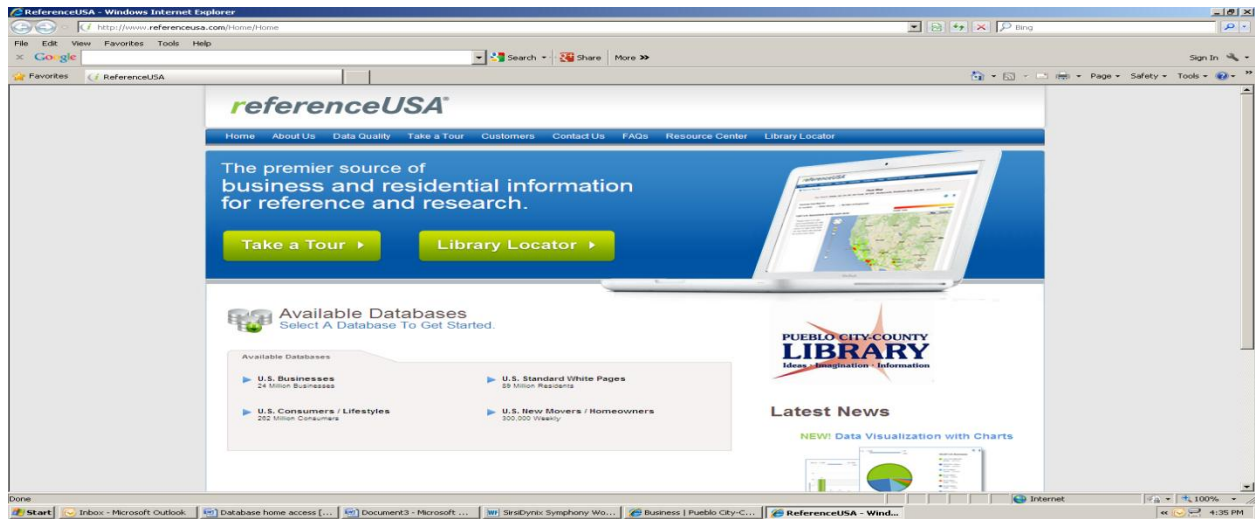

ReferenceUSA is a powerful database and one of our most used eResources. PCCLD subscribes to four separate databases from RefUSA. Those are:

U.S. Businesses showing detailed information of 24 million businesses

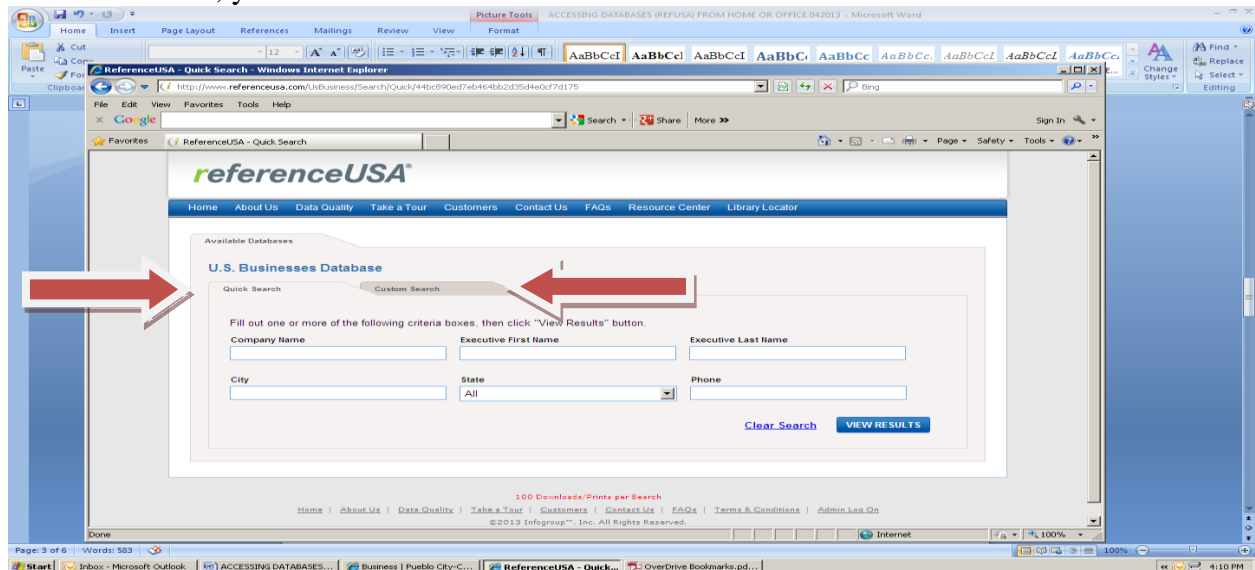

U.S. Consumers/Lifestyle showing detailed purchasing information of 262 million consumers

U.S. White Pages listing contact and location information for 89 million residents

U.S. New Movers/Homeowners showing information on 300,000 residents on the move weekly

In each database, you can conduct a basic or a custom search.

U.S. Businesses

The quick search allows you to type in the name and/or location of a business or businesses. For example, you could type in Pueblo, CO and a list will be produced listing every business with a Pueblo address. HINT: If you are searching for a specific company, do not use terms like “company” or “corporation” or abbreviations as the database looks for exact matches and may miss your company.

The custom search allows you to search by a number of detailed criteria. You will always want to set geographic parameters for these searches if you do not want every company in the United States matching your other parameters to be on your list. HINT: If you select an area other than state, DO NOT select state. You will be asked to enter the state where you name the smaller area you have selected.

You can use as many parameters as you wish to conduct your search. After you have set all the parameters you want to use, click “Update Count” on the right to see how many hits you drew.

Start | Inbox - Microsoft Outlook | ACCESSING DATABASES... | Business | Pueblo City-C... | ReferenceUSA - Cust... | OverDrive Bookmarks.pd... | Internet | 100% | 4:16 PM

If it is not a manageable number, add additional parameters. When you have a workable number of hits, click “View Results” and you will get the names and details of all matching companies. You can print 50 of these at a time if you are in the library and 25 at a time from elsewhere. You can also download the information to a thumb drive, to your computer or to email.

U.S. Consumer/Lifestyle

This part of RefUSA allows you to create mailing lists of your ideal consumer, select a prime location for your business based on locations of those consumers, create lists to meet your needs and many other applications. The search parameters include income level, home value and about 100 consumer preference choices. Individuals are placed in these categories based on their spending more than the average U.S. consumer in the category. If you select more than one lifestyle category, your list will include people in either category.

Downloading and printing operates the same in each database.

Tutorials are available on the RefUSA site. We highly recommend that you watch at least one tutorial before beginning a search. Many additional tutorials are available at www.youtube.com. Tutorials are available covering most any action you wish to complete on RefUSA. You may contact or come to any library branch for assistance using the databases. For business databases, you will be best served if you contact the Business Librarian at 562-5667 for an appointment before coming in.

Happy searching!
