Women's History Week Book Discussion

**Women of the Silk
by Gail Tsukiyama
Saturday, March 18
2 p.m.
Barkman Library**

Celebrate Women's History Week with a discussion of the silk industry in China.

Gail Tsukiyama takes her readers back to rural China in 1926, where a group of women forge a sisterhood amidst the reeling machines that reverberate and clamor in a

vast silk factory from dawn to dusk. Leading the first strike the village has ever seen, the young women use the strength of their ambition, dreams, and friendship to achieve the freedom they could never have hoped for on their own.

Each person who attends will receive a silk pod actually spun by a silk worm.

This event is free and open to the public. For more information, please call (719) 562-5683.

Teen Stories at Barkman Library

**Thursday, March 9
7:30 p.m.**

Barkman Library is finishing William Sleater's *The Last Universe* for its Teen Stories Night. Participants will also learn how to make fun and simple origami masterpieces.

Partly because of his half-Indian ancestry, he feels alienated from his fellow students.

Fortunately, he is able to escape to the woods and comes across a mysterious dark pond, which he senses hides something sinister and dangerous.

With the help of an Indian named Mitche, Armie discovers the secret of the pond - a giant carnivorous creature from which Armie must rescue Mitch and himself.

This event is free and open to teens in grades five through eight. For information, call the Barkman Library at (719) 562-5680.

**Thursday, March 16, 23, 30
7:30 p.m.**

Come and listen to a new adventure. We will begin reading *Dark Pond* by Joseph Bruchac, a book about Armie Katchatorian, who attends a private boarding school.

Friends of the Library President's Corner by Jane Milne

"Happy people find ways to constructively deal with the problems that come up in their lives. They are problem-centered, rather than self-centered." - Mundy

I encourage you Friends of the Library members to attend our annual meeting on April 6, 2006. (Details on front page.) If you enjoyed the living history portrayals of Thomas Jefferson, played by the famous Clay Jenkinson, and Abraham Lincoln, brought to life by John Voehl, you are sure to enjoy Barbara Daubenspeck as Baby Doe Tabor. What a great way to get in touch with Colorado's rich history.

What Did You Learn Today? by Edna Shoaf

Someone...(Don't you just adore those nebulous terms such as "someone" or "they" or "those folk over there"? Now don't get me started about "them" and "us." Makes me think about cliques in school.) Now, where was I? Oh, yes, "someone" once said that a day is wasted unless one has learned something new.

So, what I have in mind are some ideas to help you learn something new every day. And if you are a parent, I have a few suggestions as to how you can assist your children in learning something new every day. The key to success in this endeavor is to be found in only one word - READ!

Read the dictionary or the encyclopedia, read a book, read the back of the cereal box, read the newspaper, read a comic book, read poetry, read a magazine, read the pamphlets in the doctor's office. If you have very young children, read the nursery rhymes. Even though they may not understand all the words they will love the rhythm and the sound of your voice. They will come to associate reading with pleasure.

To learn how to spell - READ! To increase your vocabulary - READ! To learn how to

write well - READ! To enjoy your free time - READ! To expand your knowledge of the world - READ! (Can you guess what my message is here?)

This is what I learned today: A "free radical" is similar to a minute porcupine covered with stickers. It is formed by the cells in your body using oxygen to create energy and giving of this waste product which has been named a "free radical." This thing bounces around knocking into and injuring other cells, creating all manner of illnesses and problems for the body. Fresh fruits and vegetables contain selenium, beta carotene, zinc and vitamins E, C, and A. These "antioxidants" absorb the spikes on the "porcupine," and it now can bounce around harmlessly. This is a very simplistic explanation of a very complex subject. So - eat your veggies like grandma said!

In the near future, your library will sponsor another All Pueblo Reads. The Friends of the Library will join other organizations to help with fun and interesting projects and activities for the entire family. Therefore, each of us can "learn something new every day." We will be anticipating the new adventures together! Have a lovely day!

Avondale Satellite News

Reading brings people together. That was the case with Phillip Zang and his friend Nigel, a child who used to read to him.

As Phillip's health started to fail, his family asked the library district to locate Nigel. When he was found, the family sent him several books.

Phillip enjoyed reading Louis L'Amour stories and had an impressive collection of *National Geographic* magazines, which he shared with Nigel. They also enjoyed stories about animals and science. Phillip was a math teacher with a Master's Degree in science. He was also a military pilot.
