formities rendered his wife unfit to discharge the duties of the married state, and the wife admitted the facts. This gave husband number two the divorce.

Mary Lucas and William Lucas were married at Cincinnati, O., Jan. 29, 1893. Habitual drunkenness and non-support were the grounds upon which the fourth woman was given her divorce.

Samuel Crow and Emma V. Crow were married at Newton, Kan., July 17, 1903. Crow proved that his wife deserted him and he was the third man to secure a decree of divorce.

The last divorce of the day was granted to Beatrice Braiden from Samuel Braiden and Mrs. Braiden was the fifth woman to get a decree.

And one of the divorcees was heard to inquire of her attorney if he believed it was lucky to be divorced on the thirteenth of the month.

AMUSEMENTS

"The Girl From Sweden."

Coming to the Grand, Sunday, matinee and night, is the crowning achievement of all Swedish dialect shows, "The Girl From Sweden." The latest comedy drama from the pen of Charles Newman, "The Girl From Sweden," is a pretty story told in four acts, telling of the hardships and progressiveness of the Scandinavian people, who in recent years have gained position of high standing in the northwest of our gracious country. The comedy drama is produced by a strong company, headed by Miss Madde De Long. High-class specialties are introduced throughout the play. Among the specialties are the marvelous Hoopers, direct from the Empire theater, London, England.

"The County Chairman."

"The County Chairman" is a homely, unassuming effort. The human element is there, and because Mr. Ade has defined it so genuinely and so simply he has succeeded in touching the heart and stirring the imagination in a very uncommon degree. His little panorama of American village life glides gently before the spectator; the stress of passions, the trials, the ambitions and the sacrifices which shake the whole world are presented upon an elaborate scale. It is in a manner of an epitome, and so the whole conflict is brought intimately and easily before us. But the loves and the hates, the mean and generous deeds involved are not the less vital and interesting because the canvass is small and the characters unimportant factors in any other world outside their own tiny community. They are types of such communities; they are perhaps the most important factor in the national life of our own country. Mr. Savage will give the piece adequate production. The scenery possesses a strong suggestion of local color, and the company will be a large one. There are 22 in the cast, and in addition about 20 extra people will be employed in the pictorial feature of the campaign. The cast is headed by Theodore Babcock and includes George Thatcher, the well-known minstrel, for whom Mr. Ade has written some capital comedy lines. Mr. Thatcher will appear as the colored politician, commonly known as a "floater." Grand Friday night.

TRAIN KILLS BOY ON SANTA FE CROSSING

Small Italian Schoolboy Run Down by Train and Horribly Mangled--- Dies Almost Instantly.

With his legs cut off and the lower part of his body terribly mangled, Joseph Albano, an 8-year-old Italian boy, was found on the railroad tracks near the Santa Fe avenue crossing shortly after 8 o'clock yesterday morning. There is no watchman at this crossing. The injured lad was taken to West Brothers & Whiton's undertaking parlors. Dr. Russell was called, but the lad's injuries were so serious that it was impossible to save his life, and he died a few minutes later.

Coroner J. J. McDonnell will decide today as to whether an inquest will be held.

The lad was the son of Mr. and Mrs. John Albano, 424 Beach street, and at the time of the accident was on his way to school. As the boy attended the Riverside school, it was necessary for him to cross the railroad tracks on his way to and from his home.

Reports of the accident were received at the railroad superintendent's office yesterday and an investigation made. From the records it was learned that an incoming Santa Fe freight train passed the point where the boy was found about that time in charge of Conductor John Reid. The crew was called to the superintendent's office, but reported that they saw no boy. It was also learned that the head brakeman was riding on the pilot of the engine at the time the train passed the point where the accident occurred and that the engine could not have struck him without the brakeman seeing him.

This fact, together with the injuries received, lead the railroad men to believe that the lad had attempted to catch the train as it went past and was swung under the wheels. As the train was moving at a slow rate of speed at this point it is argued that the boy might have thought he could swing onto one of the cars and get off when he had reached Santa Fe avenue. Failing to get a good hold on the step, he could easily have been swung under the car and caught beneath the moving wheels.

This theory, it is claimed, is substantiated by the nature of the boy's injuries. His left leg was cut off near the body, his right leg was severed between the knee and ankle and the lower part of his body was mangled. It is held that had the lad been struck by the engine there would have been marks received about his head or the upper part of his body.

Regarding the train which killed the lad all is still uncertainty. Both the Santa Fe and Colorado and Southern use the tracks where the lad was found.

Residents in the vicinity where the lad lived held an impromptu meeting yesterday afternoon. It was pointed out that it was necessary for the children from that vicinity to cross several railroad tracks on their way to and from the Riverside school; that the tracks were unguarded either by gates or a watchman, and that they would object to their children attending the school until some protection was furnished.

At noon today the body will be taken to the home of his parents, 421 Beach street, from West Brothers & Whiton's undertaking parlors. At 2 o'clock services will be held at the home and at 2:30 o'clock from Mount Carmel church. Interment in Roselawn.

NEEDLESS ALARM.

Here's a poor man coughing away his lungs—at least so his relatives think.

It's cough, cough; hack, hack, hack; all day and sometimes all night.

"Must be consumption," think the alarmed ones.

And of course, there is always a possibility that they may be right.

But in most cases, they're wrong; because Dyspepsia is so much more common than Consumption.

And Dyspepsia causes chronic Cough, just like Consumption.

The Dyspepsia Cough, it is well to remember, can be quickly cured by Stuart's Dyspepsia Tablets.

No need to be alarmed about it, unless you make up your mind to neglect it.

Then, indeed, you must look out for danger; for the Dyspeptic Cough often grows into a Consumptive Cough if neglected, by the constant lung irritation which it causes.

So the best way is to waste no time, but begin at once the use of these famous little tablets, the timely use of which has saved many a sick person from ending in a consumptive's grave.

Remember, however, if you please, that Stuart's Dyspepsia Tablets will positively NOT cure Consumption, but prevent it.

Of course, they can always be depended on to cure all other symptoms of indigestion.

They are a universal cure, for one universal disease.

They cure nothing else; but what they do, they do thoroughly and well.

Stuart's Dyspepsia Tablets are the result of the most thorough investigation into the inside causes, and the cure of Indigestion, that has ever been attempted.

They have solved a problem, the answer to which a hundred thousand physicians in America are today groping for in vain.

They cure the most severe, long-

TELEGRAPHERS AND AGENTS ACCEPT WAGE SCALE

By Associated Press.

Washington, March 13.—The committee of five representing the telegraphers and station agents of the Southern railway last night agreed to accept the wage scale of that road. The wage scale as agreed on, does not contemplate a minimum or maximum wage but has been adjusted with a view of fitting each individual case.

In announcing the fact that a settlement had been effected, H. B. Perham, president of the Order of Railroad Teleprahpers said:

"The committee representing the telegraphers and station agents are very well satisfied with the scale agreed on. While some of the employes have grown a little impatient since the negotiations were opened with the Southern on December 7, those having direct charge of the matters, knowing the immense amount of work necessary before an acceptable scale could be agreed on, have nothing but words of praise for the officials of the Southern."

SLEEPLESSNESS.

Disorders of the stomach produce a nervous condition and often prevent sleep. Chamberlain's Stomach and Liver Tablets stimulate the digestive organs, restore the system to a healthy condition and make sleep possible. For sale by all druggists.

Anti-Jewish Proclamation.

By Associated Press.

St. Petersburg, March 13. The anti-Jewish proclamation alleged to have been issued by the beaureaucracy consists of a programme of twenty-two articles, including a demand for the ex-

the levying of a lump of money from the Jewish population in lieu of military service, the reassumption of Jewish names where they have been changed, the prohibition to the Jews of certain professions, like the stage, and that none but the grandchildren of Jews who have accepted Christianity shall enjoy full legal rights.

PUBLISHERS ATTENDING COPYRIGHT CONFERENCE

By Associated Press.

Washington, March 13.—The third of a series of conferences in which practically every branch of the publishing interests of the country are represented began at the library of congress today for the purpose of completing for the action of congress a codification of the amendments to the copyright laws.
