PASSED TO REST.

Last night at 9 o'clock at the residence of Ex-Senator George M. Chilcott, occurred the death of Zoe, wife of H. Clay Chilcott, after a long and lingering sickness which has extended over a number of weeks, and has been attended with much pain and suffering.

For years Mrs. Chilcott has been a patient sufferer from a fistula in the breast. Some months ago she visited Philadelphia with her daughter for the purpose of consulting Dr. Agnew, and he told her that the time would come when she must have an operation performed and the fistula removed, though he was frank enough to tell her that she would not in all probability live three months after the operation was performed.

When she returned to Pueblo she seemed to suffer more than usual, and one night about two months ago she was prostrated with a severe attack of something like spinal meningitis, and for a time it was not thought she would live through the night. She rallied, however, and got up and around again, but her usual animation seemed to have left her, her mind did not seem clear and her strength did not return. About a week ago she was taken down again, and for the past three days she has been in an unconscious state, passing into eternal rest last night at 9 o'clock.

Mrs. Chilcott was about 38 years of age, and leaves a husband and a daughter about 14 years of age to mourn her irreparable loss, and to them and other sorrowing and grief stricken relatives much sympathy will be extended in this sad hour of their affliction.

Notice of the funeral will be given in a future issue of this paper.

You can make money by attending the balloon ascension on the Mesa addition this morning. Fifty dollars in silver will be showered from the balloon as it goes up.
