An Exclusive Optical Store...

We are often asked why we do not add jewelry to our store stock. Our only reply is we prefer to run an exclusive business. One business properly conducted, is all we can attend to.

If we had made a failure of the optical business we might be compelled to add some side line to help pay expenses. As it is, we have made a great success of the optical business and as long as the people show us such generous patronage we would not be doing them justice nor have we time to spend in some other line of business.

We are exclusive opticians. The only manufacturing opticians south of Denver. Don't forget it, when your spectacles are broken.
