Kokomo, Ind., March 31, 1913.

# Dies as He is Being Taken Into Hospital

Found lying unconscious on the sidewalk in front of his barber shop on Routt avenue, evidently suffering from a stroke of apoplexy, Orzil Hampton was rushed to St. Mary's hospital yesterday noon in the police ambulance, dying as he was being carried into the receiving room.

Passersby saw the man reel and fall in front of his shop and immediately notified Patrolman Harry Young. The ambulance was rushed to the place and Hampton taken to the hospital. His condition was known to be serious, but it was thought his life could be saved if he could be gotten to St. Mary's in time.

The distance, however, was too long and he was almost dead when taken from the ambulance. Before he could be carried into the receiving room he died.

Hampton is survived by his wife and three children, all residing at 1228 Cedar street. He was 35 years old.
