DECLARES EDWARD'S LIFE WAS THREATENED

By Associated Press.

New York, Jan. 10.—"I, probably the last of Charles A. Edwards' friends in New York City to see him alive, never saw a man in a more sane mental condition than he was at the time of our last meeting, just previous to his departure for New Haven. That he committed suicide seems to me to be beyond the pale of possibility."

This statement was made last night by Dr. A. R. Le Doux, a friend from boyhood of the man whose mysterious death in New Haven is puzzling the country.

"I met Mr. Edwards about 5 o'clock on the day of his departure for New Haven," said Dr. Le Doux. "It was plainly evident to me that he was in a state of excitement.

"What is the matter, Charlie?" I asked him.

"'I am starting for New Haven, and I am in trouble,' he said.

"Then, with much reluctance, he told me of threats that had been made against his life."

Dr. Le Doux says that Mr. Edwards told him whom he feared and that he had been warned not to go to New Haven again.

Will Not Enter Dry Dock.

By Associated Press.

New York, Jan. 10.—The battleship Kentucky will not be placed in the dry dock at the navy yard, as a result of her collision with the Alabama on Sunday. This was decided upon yesterday, after a consultation of Captain Hemphill, acting commandant, Naval Constructor Nutting and other officials. The only injuries to the ship are found to be above the water line. They consist of the bending and breaking of some plates on the starboard quarter.

Two small pieces of the blades of the Kentucky's starboard propeller have been chipped off, but they are so small, the divers report, that their loss will not interfere with the speed of the ship. The chief engineer declares the report that the shaft was bent to be untrue.

It was also decided that the work of repairing the damage to the Kentucky should proceed night and day. This, it is thought, will release the ship in less than two weeks, so that she will be able sooner than was expected to join the other vessels of the North Atlantic squadron now in Hampton Roads.

A GRIM TRAGEDY

Is daily enacted in thousands of homes as death claims, in each one, another victim of consumption or pneumonia. But when coughs and colds are properly treated, the tragedy is averted. F. G. Huntley, of Oaklandon, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves.
