The subject discussed was "Should Immigration be Restricted?" Mr. P. M. Liddy was the leader, and all other members present took part in the debate. A majority of those present, as well as the leader, were strongly in favor of the restriction of immigration. After the meeting Mr. Sharpless invited the members of the club to partake of refreshments at the establishment of John Seiter. Mr. Liddy was called upon by Mr. Sharp to respond to the toast "Our Host," and he responded in a few well chosen words, which were loudly applauded.

The annoyance of breaking lamp-chimneys need not be borne.

Get tough glass chimneys.

Macbeth's "pearl top" and "pearl glass" are tough against heat; they do not break except from accident.

They are also clear, transparent, not misty or milky; they fit and stand upright; shape and proportions are right to direct the draft upon the flame.

They cost a little more than rough and wrong chimneys of common glass that break continually.
