

FIRST FLOOR

REMODEL TIMELINE: Summer/Fall 2021

The First Floor renovation of the Rawlings Library will fundamentally improve how patrons access the library, gather for community meetings, collaborate, acquire skills and access information. The improvements envisioned for the library site and First Floor embody a fully reimagined facility, providing additional meeting rooms, an expanded maker space, more visible museum and exhibit space, and an operational cafe with reading lounge area.

These improvements to the building allow for increased engagement to occur, providing opportunities to enhance the vitality of the community, as well as enhance a public facility that serves as an educational resource for children, teens and families.
