

Upgrade Rawlings Lighting Control System

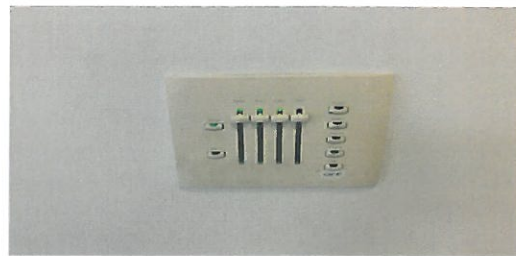

Additional funding for after hours work

MAIN CONTROLLER AND SECONDARYCONTROLLER

LCD display touch screen 4 total

Multifunction slide switch 8 total

Secondary controller

Currently using old unreliable technology

The cost of replacing lighting control system was \$47,608.70

The next bid was \$64,556 then the 3rd bid was \$67,044. This did not include any after hours or over time.

In order to complete this project after hours so we do not close the library I am asking for an additional \$2304. This is for after hour over time for installation of the lighting control system.
