KILLED BY A STRAY BULLET.

Al Alkire a Victim of Some Careless Celebration.

SHOT NEAR THE POSTOFFICE.

Standing On the Sidewalk, All Unconscious of Danger, At 9 O'Clock Last Night, He Was Suddenly Stricken Down By a Bullet Fired By An Unknown Person and Died in Ten Minutes.

Al Alkire is lying on a slab in the county morgue as the result of indiscriminate revolver shooting to celebrate the Fourth of July. For some time after his death the cause was a mystery but an autopsy showed that it was caused by a 32-calibre bullet fired by someone as yet unknown. The county and city officers are making every endeavor to locate the person who fired a revolver in the vicinity of the accident with the hope that the person will be found and he will be made to suffer. No doubt exists but Alkire's death was purely accidental but the police hope to put an end to the shooting of firearms on such occasions. An inquest will be held.

About 9 o'clock last night Alkire was standing leaning, with his right side against the brick wall between the postoffice and the Bach Shoe and Clothing company's store on Santa Fe avenue near Second street. Suddenly he fell to the sidewalk and George Black who was directly in front of him at the time, E. Ellingwood, who was in the postoffice, and Thomas H. Morrisey, who was very near, went to his assistance. Black remarked that he thought the man was having a fit. Alkire replied, "Fit, h—l, I'm shot." Black asked him if he had been drinking and he replied that he had taken two glasses of beer. He indicated where he had been shot. Examination showed that he was bleeding profusely. Before becoming unconscious he remarked, "Oh, I'm in terrible pain." He did not speak again after that.

As soon as possible the police ambulance was called and the suffering man was taken to the police surgeon's office. He died soon after reaching there, having lived about ten minutes after being shot. The body was at once placed in the coroner's charge and removed to the morgue. Acting Police Surgeon Robe at once decided to hold a post mortem and Dr. A. T. King was called to assist. Rumors were rife as to the cause of death. At about the time Alkire fell a cannon fire cracker was shot off very near the postoffice, in the street, and many thought that Alkire had been killed by a piece of the flying fire cracker. Examination of the wall near where the man was standing
