Turner of the State Fair association returned last night from the northern part of the state where they have been for the past few days in the interests of the state fair to be held in Pueblo September 26 to 30. Both report that they found conditions there the same as in the Arkansas valley, and that there is every prospect that this year will see larger and finer exhibits from this part of the state than ever before. The farmers have had an unusually good year, which means that they will not only exhibit their best products at the fair, but will be in attendance. During the past it has been a hard matter to interest the farmers in the northern part of the state in the state fair, but the work of past years will be fair, and it i ern part of southern an hibits and a

Dies on Train

Rocco Angelucci, formerly employed as a laborer in the Rugby coal mines at Aguilar, died on a Colorado and Southern train while on the way to Pueblo for the purpose of undergoing an operation. The young man was twenty-six years old and was suffering from an obstruction of the bowels when death claimed him yesterday afternoon. The remains were taken to McMahon and Collier's undertaging establishment in this city, accompanied by Dr. Chappell, who had been placed in charge of the sick man at Aguilar. The funeral will be held from McMahon and Collier's chapel at 10 o'clock this forenoon.

Armenians in Destitute Condition.

By Associated Press.

Washington, Sept. 7.—The American consul at Harput has reported to the state department that he has visited Bitlis and is now in Mouseh. The consul states that the district of Sassun is tranquil and pacified and the strategic points are garrisoned by infantry detachments and permanent barracks erected. He also reports that the inhabitants are in a destitute condition.

In the Mouseh districts insurgents have adopted a guerilla form of warfare, ambuscading troops and bodies of Kurds. They demand certain reforms which concern chiefly matters of local administration and economic questions not involving the integrity of the empire. A number of villages have been plundered and burned and many persons killed and maltreated and another massacre is expected by the Armenian population which is in destitute circumstances. About 1,500 have lost everything and are starving many being ill and wounded.
