Almost All Sign for Art Lights

With only three or four more property owners on Main street to sign up the new ornamental lighting system proposed by Commissioner Thomas A. Duke a month ago is practically assured. M. D. Thatcher yesterday signed the petition for the new lights both for property owned by the Thatcher brothers and for owners of property for whom he is agent.

Owners of property located on Second, Third and Fourth streets have about all signed the petition, and there is said to be no doubt whatever now that the movement will go through as planned. So enthusiastic are the merchants and business men over the lighting system that at the meeting held at the Congress hotel a month ago it was decided that in the event a small per cent of the property owners fail to agree to bear their share of the expenses, the deficit will be made up by them.

A meeting of the property owners and business men will be held toward the latter part of the week, when definite plans for completing the proposition will be decided upon.

When you have rheumatism in your foot or instep apply Chamberlain's Liniment and you will get quick relief. It costs but a quarter. Why suffer? For sale by all dealers.
