Excellent workmanship.

GOT THE FEVER.—A party of resi-
dents on Minnequa Heights, headed
by Robert Roblek of the Minnequa
Mercantile company, have got the oil
fever so bad that they are going to
send to Oklahoma for a geologist and
expert with a view of boring a well in
the "saddle" near the Lakeside school.
Parties who are supposed to know
claim that indications of an oil struc-
ture at that point are most flattering.
If reports are favorable, Mr. Roblek
says organization will be perfected at
once for immediate action.
