woman who is wanted in Trinidad in connection with the mysterious death of a man by the name of Gray, who was found dead in his room Tuesday.

It is claimed by the Trinidad authorities that Gray had almost $125 on his person a short time prior to his demise, and that the Hitt woman was the last seen in his company. Tuesday she walked from Trinidad to Barnes siding, a small station on the Rio Grande just north of Trinidad, where she boarded the train for Pueblo. The authorities here had been notified and Detective George Fariss captured her at the Arcade hotel where she had registered under another name. She had $8 on her person when found, but would not discuss the matter, only to say that she was the woman suspected of it and was on her way to her old home in Tennessee.
