he returned to Pueblo and resumed work. Sunday a surgical operation was performed on his arm and an examination made which brought out the fact that the affliction was of a more serious character than had been previously thought and that another operation would be necessary which might even necessitate the amputation of his arm. Wishing to be at home in case a capital operation became necessary he left for Sedalia last night and whatever operation is found to be necessary will be performed immediately upon his arrival there. During the time he has been in Pueblo Mr. Grimshaw has made more than the ordinary number of friends and the hope is universal among them that he may recover and return to his work in this city.

Flying Fishers.

The Flying Fishers, who are engaged with Ringling Brothers World's Greatest Shows this season were the reigning sensation of London last winter. These great artists perform feats in mid-air that many clever acrobats hesitate to attempt on the ground. There is no other act like this in the world.

Ringling Brothers, whose big circus is to exhibit in this city Thursday, have forty big and little elephants. All the other circuses and zoological gardens in the world combined have hardly half that number.
