Astigmatism.

Astigmatism is not a disease but is simply a defect in the shape of the eyeball. There is no condition which causes so much discomfort and fatigue, especially headache. A peculiar feature about astigmatism is that people who have it seldom know that anything is wrong with their eyes. They lay all their suffering to some other cause. They believe that they can see as well as any one and in a good many cases they can. If you are suffering a great deal with headache, if you are suffering with neuralgia from back of the eyes, the chances are very good that you have astigmatism.

CONSULTATION FREE.

Geo. D. Kendall,

Manufacturing Optician.

PROSPERITY

follows a merchant if he keeps wide awake to the interests of his customers, if he is courteous to all and if he carries a well selected stock of goods at the right prices. Our business has been increasing every day, the last week being another one of the largest we ever had. It is just cause for pride, because it shows that we please our customers. We solicit your trade.
