EVERYBODY SEE THE GALLOPERS—STATE FAIR GROUNDS—JULY 4.

A great many years ago when some of us lived east and had home made things to eat the lard for shortening and frying and browning was sweet, wholesome and pleasing to the smell because it was rendered in mother's clean kettles from the "simon pure" lard leaf of the freshly killed "porkers." Mr. Poe has here in his basement market exactly this kind of sweet, good smelling and good lasting lard for those who are willing to pay just a little more for it than is asked for the commercial brands. If you use lard for the family cooking and you see and inspect this you will buy no other. Anyhow we venture it as a safe prediction.

Boys Arrested

Six small boys who succeded in climbing up in the windows of the third floor of the National Biscuit company last night, and were taking in the show at the Grand Stand, were placed under arrest and kept in the city jail until midnight, when they were given a severe lecturing by the night police captain and allowed to return to their homes.

The boys were cutting up and making such a disturbance that it was impossible for the performers to continue their acts and the latter requested that the urchins be taken in custody.
