

Paris, Oct. 18.—Prince Radziwill and Count Roniker, the Polish delegates who went to the German emperor's headquarters last August to present to him Poland's claims, were much struck by the monarch's depression and indifference, says The *Matin*. Emperor William consented readily to demands, the newspaper adds, which ought to have appeared very excessive to him. "Not only did he agree to the creation of an integral and independent Poland," the *Matin* continues, "but he let pass without protest allusions to Posen and acquiesced when the delegates and acquiesced when the delegates spoke to him regarding a sea outlet for Poland at the expense of east Prussia. "As for the crown prince, he confined himself to snickering and slapping the delegates on the back, giving them the impression that he was a most unintelligent man. General Ludendorff was the only person who appeared to realize the situation but did not dare to contradict the emperor. He relieved himself by granting furiously."

Wouldn't Extend Wheat Acreage

Washington, Oct. 18.—Julius H. Barnes, president of the Food Administration's grain corporation, believes that further extension of wheat acreage would be unnecessary and unwise. In a letter today to Senator Hitchcock, of Nebraska, Mr. Barnes said a fair yield from the present large acreage with any peace developments opening new sources of supply would necessitate congressional appropriation to make effective the present price guarantee.

Drastic Beer Orders

Washington, Oct. 18.—Not even Kruezen, or new beer for carbonizing old beer, can be brewed after December 1, under a ruling announced today for Food Administrator Hoover and Fuel Administrator Gard. Brewers had asked that they be allowed to brew new beer for this purpose after the date fixed by the president for all brewing to cease.

If necessary to use up the malt and other material now on hand brewers may use as much of this fuel allotment as they choose between now and December 1, it was announced. However, for the purpose of refrigeration after December 1 it is considered that the allotment of fuel under the order of last July 3, is sufficient and it will be necessary for the brewers to save sufficient fuel out of their allowance for refrigerating purposes.

A movement for woman suffrage has recently assumed definite form in the island of Jamaica.
