Dobson, a watchman for that company. Penna was brought before Justice Hart and pleaded guilty to the charge. He was sentenced to ten days in jail.

Tony Frenchic, charged with stealing coal from the Missouri Pacific yards, was arrested by Watchman J. W. Duckworth. Frenchic was arraigned before Justice Hart and pleaded not guilty. His trial was set for March 9 at 10 o'clock in the morning. His bond was placed at $50 which he furnished and was released awaiting trial.

The railroad companies are determined to put a stop to the coal stealing that has been going on in their yards for the past year or so and many arrests have been made recently on this charge. In every instance so far the men have been found guilty and either fined or sentenced to terms in jail.

Michigan Lawyer Dies in Pueblo

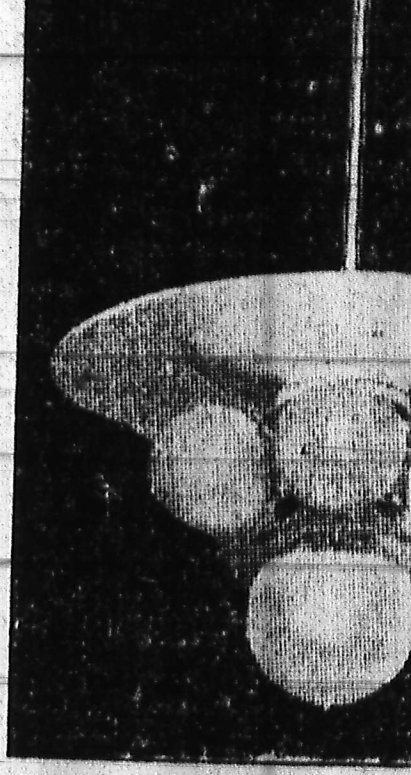

Armond S. Tibbetts, a lawyer and politician of prominence in Michigan, whose home was in the city of Fremont, died in Pueblo yesterday of quick consumption. He had been in the city for only five days, having come here, attended by his son, in the forlorn hope of health. He was 48 years old.

He was considered one of the leading Republicans of the state of Michigan. During the last campaign and in several previous campaigns he stumped the state, being considered a speaker of force and polish. The remains will be taken from McCarthy's to the home city tonight attended by the son.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
