

President Harry Pulliam, head of the National Baseball League is expected to prove the best leader the league has ever possessed. Now that difficulties with the American League have been cleared away all signs point to a prosperous ball season. This is President Pulliam's firm opinion.

Adams (Conejos). Bailey, Ballinger, Copp, DeLong, Ewing, Hughes, Kennedy and Wood.

The senate took up the medical bill and adopted it in the committee of the whole. As the measure no wstands all of the schools are satisfied. It provides for a medical board of nine members to be appointed by the governor. That executive is to use his own discretion in his appointment. It is supposed he will appoint a board composed of members of all schools. All medical practitioners must take the examination before this board. The osteopaths may use the letters D. O. instead of M. D. in designation of their school. The bill does not apply to religious heelers but a provision prevents them from attempting to prescribe for infectious or contagious diseases.

The house held a very short session this morning and adjourned in order to allow a number of committees to work in their respective committee rooms. When it met after dinner a new calendar had been made up and Representative Morris of Denver objected to it. He arose with blood in his eye and started a rough house by intimating that those in charge of compiling the calendar did not recognize the rule of position in regard to bills, that measures recently reported out by the committees were on the calendar for consideration while others reported out long ago were not on the calendar. He did not say so but his manner indicated that he thought certain bills were being held back. He had in mind the senate eight-hour bill and the county assessors bill changing the corporate assessing power of the state board of equalization to the county assessors. He claimed that those two bills should be on the calendar, and he moved that the assessors bill be placed on the calendar. Representative Garcia objected. Mr. Morris not wishing to be defeated moved that the bills be made special order. Mr. Garcia raised the point of order that a bill can not be made a special order until it appears on the calendar. The speaker held that the point of order was well taken. Mr. Morris then moved to take from the table his resolution of Friday which exempted $200 worth of personal property of all kinds from attachment. He demanded a roll call, but his motion was lost by a vote of 21 to 31.

Representative Morgan also has trouble. He wanted to know what had become of the Hillyer anti-gambling bill. He was sure it should be on the calendar. He was informed that it was out of the committee but did not come out on time to be placed on this calendar. He therefore thanked the republicans for what he termed the first information regarding a measure he had received this year.

In committee of the whole the house passed the Rouble bill fixing laws for control of the State Industrial School for Girls.

To Look About

President Doesn't Want Reception at Springs

Colorado Springs Bureau,
The Pueblo Chieftain.

Colorado Springs, March 16.—President Roosevelt will be in Colorado Springs for an hour and 35 minutes on the afternoon of May 4. This information was conveyed in a telegram received by President Fairley of the Chamber of Commerce. The telegram was signed by Private Secretary Loeb. In the presidential party will be Elihu Root, secretary of war; Surgeon General Rixey, Private Secretary William Loeb and press representatives. In the telegram it was requested that the time here be spent in driving rather than in a public reception.

There was a meeting of the directors of the Chamber of Commerce this afternoon for the purpose of answering the telegram and to prepare a suitable program for the president's visit.

BASEBALL ARRANGEMENTS.

The baseball season will open here April 22. The initial game will be between the Millionaires and the Prohibitionists from Des Moines. There will be a series of four games, and on Sunday, April 26, another four-game series will be commenced with the Omaha team.

President Sexton of the Western league stopped off in Denver for a few hours on his way- east. In an interview he stated that he expected the Western league to put up a better article of ball this year than last season, as all of the teams have signed good men. He says that while the Western league schedule is already prepared it would not be given out for ten days.

GRINDING OUT DIVORCES.

In the county court Judge Orr granted four divorces in fifteen minutes. The plaintiff in each case was the wife The cases averaged slightly over three minutes.

MORE CLUB SPACE.

There is a movement on foot among the officers of the Pike's Peak club to have an additional two stories added to the club streets. There will probably be a cafe installed on the first floor with dumb waiter facilities for the room above This would be a much appreciated improvement.

Two pairs of old blue overalls, two cloth masks, a black slouch hat and an old shirt were found under a building in the vicinity of Fourth and Court streets. The articles were discovered by Sergeant Irwin about 8 o'clock yesterday morning, and are undoubtedly a part of the paraphernalia worn by the murderers at the time the crime was committed. Several persons who were in the cafe Sunday evening examined the masks and overalls at the police station yesterday all were satisfied they are the same.

Both the masks are made of pieces of cloth about eighteen inches long and seven inches wide, with holes cut for the eyes. One is of black material and matches the lining in the overcoat found late Sunday night. The other is made of soiled white muslin. The holdups wore white and black masks. The disordered arrangement of the articles when found upon the ground indicate that they were hastily discarded by their owners, who evidently got out of their disguises as soon as possible after the shooting.

Suspects Seen

A report was received yesterday forenoon that two strange men had been seen going east along the Missouri Pacific tracks early in the morning. Officers were at once dispatched in a buggy to overhaul them. About 7:30 parties who came in on a Missouri Pacific freight train stated that they had passed four men at 5::30 about 25 miles east of Pueblo. Two of them were quite a distance in advance of the others. These were young and medium sized, one being four or five inches taller than his companion. No detailed description could be given of the two men walking ahead, but it was not thought that the four were in the same party. Telephone messages sent to various points along the Missouri Pacific, together with the efforts of the officers already on the trail, make it almost certain that the party will be intercepted.

A number of the men caught in the round-up by the officers were examined before Chief Shoup yesterday. Nothing to positively incriminate any of the suspects developed in the investigation. Two were dismissed and the others retained indefinitely.

All of the officers, both city and county, have and are still working tirelessly to capture the murderers. Most of the offficers have been without sleep since Sunday evening, and a relentless search will be continued until the assassins are captured, dead or alive.

Bishop Dies

C. E. Bishop who was wounded by the desperadoes at Lousteau's Sunday evening, died at 9:30 yesterday morning at St. Mary's hospital. Bishop was an inquest over the remains of C. E. Bishop at 10 o'clock this forenoon. The jurors named are A. T. Stewart, B. F. Ford, P. Byrnes, J. E. Fisher, C. W. Thompson and L. G. Walker. No funeral arrangements have yet been made.

The remains of Dr. J. H. Turner were taken to Corning, Iowa, for interment. They were accompanied by Dr. Stoddard of Pueblo, who will take part in the last sad rites over the body of his late associate.

Governor Answers

Mayor Brown yesterday received a telegram from Governor Peabody stating that no funds were available which might be used in offering a reward for the apprehension of the Pueblo murderers, but that he had asked the Legislature to make an immediate appropriation for this purpose and if this was granted he would immediately comply with the request of the Pueblo authorities and citizens.

Yesterday Colonel G. J. Piper added another $100 to the reward offered for the capture of the murderers, making a total of $3,150.

Cash Reward

The State is Asked to Make Additions.

Denver Bureau,
The Pueblo Chieftain.

Denver, Colo., March 16.—Governor Peabody asked Attorney General Miller this morning if it were possible for the state to offer a reward for the capture of the men that killed Dr. John Harold Turner and C. E. Bishop in the Lousteau restaurant at Pueblo last night. The attorney general replied that it was possible to offer a reward if there were any funds appropriated for that purpose. Investigation showed that the Thirteenth General Assembly failed to make such an appropriation. Governor Peabody immediately went before the finance committee of the house, which is drafting the general appropriation bill, and asked that committee to include such an item in this year's appropriation. Late this evening Chairman Breckinridge of the committee stated that either four or five thousand dollars would be set aside for such a purpose. The committee on appropriations hopes to report its bill Wednesday morning. If the measure experiences no difficulty in passing the two houses it may be that the appropriation will be made in time for the governor to offer a reward in this case.

ITALIAN DIES BY OWN HAND

Partly decomposed and the face terribly mutilated by wild animals, the body of Nunzio Buonamos, an Italian against whom a serious charge rests in the courts was found yesterday lying in a ditch two and a half miles from the Acme brick plant. There is no doubt but that the body is that of Buonamos, Sheriff Beaman and a number of others identifying it.

Buonamos had committed suicide by shooting himself with a revolver, which was found lying across his throat. The last seen of him was on the morning of February 22, and it is believed that he committed the deed that day. He was very much worried about his arrest, and when he failed to appear in court on February 27 to answer the charge against him, it was generally believed that he had taken his life, as he had been heard to say that he would do so. His clothes were found at his shoeshop, 204 Santa Fe avenue, together with his watch and $25 in money.

The body was dicovered by two boys who were on the prairie, and the authorities notified, who had it removed to the north side morgue. The face had been partly eaten away by coyotes.

In Good Condition

SCHOOL FOR GIRLS IS GIVEN A GOOD REPORT.

Denver, Colo., March 16.—(Special.)—The special examiner, Louis G. Schwanbeck, apointed by the governor to examine into the financial condition of the several state institutions has found one that is absolutely all right. His report on the financial condition of the State Industrial School for Girls was made today. It shows that every dollar appropriated has been accounted for and every dollar spent has been well expended. He pays Mrs. Irish, the superintendent, a high compliment.
